About

Rain is a systematic, passionate, interdisciplinary community liaison with a Bachelor's in dance and a Master's in IT. An epic public speaker, they have disappeared within a box stuffed with swords, created life, and gone skydiving with the Queen. Yes, really. Rain is an active technical contributor with Tinkerbell, RDO, Fedora Project, OpenStack, TripleO, and DjangoGirls.

Specialties: Open source, collaboration, Developer Relations, community management, documentation, DevOps, containers, IaaS, cloud services, bare metal, public speaking, SEO, marketing, social media, Red Hat Enterprise Linux, OpenStack, PHP, Python, HTML, vim, and git.
